Parc Fermé

After completing their laps and in lap, all cars will be in parc fermé outside of their Team garages in parallel. Once all cars have finished Superpole they will be in parc ferme in their garages until called to the Tech garage. All cars in Superpole will be scrutineered.

The refuelling rig of each Superpole car will be in parc fermé conditions as soon as the car has finished its run; this does not affect any support series teams who are allocated to that area for their sessions.
